PROFESSIONAL SUMMARY

Dynamic Software Engineer with a proven track record at Chevron, specializing in .NET and cloud-native solutions. Successfully led the creation of a zero-downtime CI/CD pipeline, significantly enhancing deployment speed. Passionate about mentoring and fostering collaboration, while leveraging expertise in Angular, REST APIs, and Azure to drive impactful results.

SKILLS

- | | | |
|---------------|-----------|--------------|
| • C#/C++ | • ASP.NET | • Angular |
| • Restful API | • Azure | • Docker |
| • CICD | • Agile | • SQL Server |

EXPERIENCE

Software Engineer

January 2019 - Current

Chevron | San Ramon, CA, USA

- Developed frontend with Angular and TypeScript for HR onboarding application, improving user experience and system scalability
- Participated in Agile development processes including daily stand-ups, sprint planning, and retrospectives.
- Built extensible REST APIs with .NET and containerized applications using Docker and Kubernetes, enhancing deployment efficiency
- Automated infrastructure provisioning with Terraform and Ansible, reducing manual configurations by 80%
- Implemented monitoring and logging solutions using Application Insights and AppDynamics, improving system observability and incident response times
- Led the implementation of a zero-downtime CI/CD pipeline using Azure DevOps, cutting release cycles from weeks to days
- Mentored junior engineers, fostering a culture of knowledge sharing and engineering excellence
- Migrated legacy .NET applications to cloud-native architectures using Azure, improving scalability and maintainability
- Developed and maintained high-performance SQL and NoSQL databases, optimizing queries and indexing strategies to improve application throughput
- Designed and implemented authentication and authorization mechanisms using OAuth 2.0, JWT, and Azure AD
- Conducted code reviews to maintain high quality standards and identify areas for improvement.
- Wrote unit tests to validate code functionality and prevent regression errors.
- Collaborated with cross-functional teams to ensure seamless integration of software components.
- Assisted with deployment processes by automating builds and releases using continuous integration tools like Jenkins or Travis CI.

EDUCATION

M.S. - Software Engineering California State University of Fullerton, Fullerton, CA	January 2023
B.S. - Computer Science California State University of Chico, Chico, CA	January 2018

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: C# Fundamentals
- FreeCodeCamp: Responsive Web Design
- FreeCodeCamp: JavaScript Algorithms and Data Structure
